

Complete Healthcare HR Tasks Faster With MedTrainer's ADP Integration

Eliminate redundant data entry and fully automate your new hire onboarding with MedTrainer, a Platinum ADP Marketplace partner. Securely transfer critical HR data from ADP to MedTrainer via an easy to use connector. Get access to comprehensive healthcare compliance without the manual effort.

QUICK AND EASY ONBOARDING

Streamline onboarding by triggering the assignment of new hire paperwork and training when adding new employees to ADP.

- Focus on other priorities while new hires fill out and sign documents electronically
- Relax knowing required compliance documents and training certificates are automatically stored
- Be confident in your compliance – and patient care – with training that is updated for you

FAST AND INDEPENDENT SETUP

Configure your ADP integration with custom field mapping in minutes using our Self-Serve Integration Setup. Preview your data mappings in real-time before going live to ensure accuracy from day one.

- No more waiting on support tickets or engineering teams for custom field mapping
- Configure Location, Department, Position, and Status mappings to match your facility's structure
- Real-time preview to validate mapping before activation

CONFIDENT CREDENTIALING

MedTrainer's connector with ADP gives you a jump start on the credentialing process by automatically adding provider information, so all you have to do is send the secure link for them to upload documents.

- Automatic exclusions monitoring begins immediately including 40+ databases
- Rely on MedTrainer's automated reminders to get informations from providers
- Documents submitted by providers are automatically added to the profile

Technical Details

HOW THE INTEGRATIONS WORKS

In addition to adding employees to MedTrainer, the sync will automatically terminate employees in MedTrainer when the employee status changes in ADP. Access is restricted, but records are not deleted. Admins can access a MedTrainer activity log at any time to perform audits or review possible discrepancies between the systems.

After the automatic sync adds an employee from ADP, MedTrainer will:

- Automatically send a welcome email to new employees
- Automatically update the employee's information based on any changes in the ADP database
- Automatically start active new hire onboarding workflows and assignments

ABOUT MEDTRAINER

Since 2013, MedTrainer has been helping busy healthcare professionals manage their credentialing, training, and compliance needs while maintaining the highest standards of safety for staff, patients, and the organization.

Over 300,000 healthcare professionals across 15,000 healthcare sites in North America rely on MedTrainer to get more done in less time.

"MedTrainer has been a game-changer for our organization, simplifying our onboarding procedures, including HR documents, the employee handbook, and the I-9 form. Its seamless customization allows us to meet audit and regulatory requirements effortlessly"

Gerald Wood,
Pharmacy Manager, ABC Pharmacy.
